

Citrix online services

Empowering new ways of working

The nature of work has changed. It is no longer a place we go but a thing we do. The widespread use of smartphones, tablets, laptops and ultrabooks has resulted in a more mobile workforce than ever before. In addition, people increasingly work with dispersed teams, including contractors and freelancers. As a result, today's workers need tools that enable them to work more fluidly, with multiple devices, ever-evolving teams and non-routine interactions becoming practically the norm.

Citrix delivers state-of-the-art solutions for helping teams work the way they want to—anytime, anywhere and on any device. By providing industry-leading and award-winning collaboration, remote access, file sharing and IT support tools, Citrix online services help companies move their business forward faster. Citrix is leading the transformation to mobile workstyles so your people can work better and live better.

The Citrix difference

We design innovative services that respond to our customers' needs and that we ourselves enjoy using. By listening to millions of users, we've created cloud-based services that are simple to use, provide great experiences, and are built for business.

Key benefits

- Increase productivity and flexibility
- Stimulate collaboration and creativity
- Reduce the time and money spent on travel and facilities
- Maintain business continuity and increase uptime
- Improve employee recruitment and retention
- Build more innovative and happier teams

Simple to use

Turn them on and they “just work.” Citrix products are intuitive by design—people like using these tools, so they are widely adopted and very effective, with no training required.

Great experiences

For the first time, people can enjoy in-person, real-time, high-definition experiences from anywhere without needing special equipment or IT expertise to set them up. Citrix gives people a more natural way to connect with each other and share their thinking and ideas.

Built for business

Designed to meet the most demanding requirements of today’s fast-paced enterprise, Citrix online services are secure and reliable, both for everyday demands and also when weather or other crises threaten to disrupt your business.

Tools for today’s workstyles

Whether you’re working in the office, at home, from a café, or while traveling, Citrix online services offer a secure, fast and easy way to interact with customers and colleagues and get work done wherever you are and whenever you need on PCs, Macs, laptops, smartphones and tablets.

GoToMeeting provides simple online meetings with high-definition group video conferencing, creating a natural, face-to-face collaboration experience that brings people together like never before, within and outside your organization. Meeting is believing!

Podio offers a collaborative work platform that enables people and teams to work the way they want to work in a social setting.

“The advantage of GoToMeeting is its ease of use. Our customers don’t need any specific prior knowledge, no installation is required and everyone can simply join an online meeting at a click of a button.”

Worldwide*

GoToWebinar makes it possible for anyone to host their own do-it-yourself webinars, allowing them to reach larger audiences, expand their marketing reach and communicate with groups more effectively.

GoToTraining enables trainers to conduct interactive online training with up to 200 participants in any location. Reduce costs and increase training capacity by moving your training program online.

Our audio services team provides integrated toll-free audio services that work with GoToMeeting, GoToTraining and GoToWebinar, plus a standalone service for businesses needing high quality conference calling at affordable rates.

GoToMyPC gives you the ability to access and work remotely on your PC or Mac from any web browser – including from your iPad, iPhone or Android device— so you can be productive wherever you go.

ShareFile is a secure, file and content sharing solution specifically built for business professionals who need to manage and share data and files.

GoToAssist remote support, service desk and monitoring tools empower IT professionals and support teams to provide technical assistance and easily manage everything IT from anywhere.

A recognized market leader

Citrix is a \$2.5 billion software-as-a-service pioneer and a leader in cloud computing. Recognized for our leadership in enabling new ways of working by providing web-based access, remote support and real-time collaboration, we continue to garner excellent reviews and win prestigious industry awards.
