FAQs

Attend from an iPad™

Visit the iPad App Store to download the free GoToMeeting application.

1. **Can I host a meeting on my iPad?**
   The app is currently just for attending online meetings.

2. **Can I use GoToMeeting on my iPhone?**
   We get a lot of requests for this (and we're listening), but the GoToMeeting for iPad application was designed specifically for the larger screen of the iPad and so doesn't cross over to the iPhone.

3. **How do I get meeting audio on my iPad?**
   Voice over Internet Protocol (VoIP) lets you join the call through your iPad's mic and speakers or by plugging in a headset. For best audio quality, use a WiFi connection.

4. **Can I chat, draw, present and share keyboard and mouse control?**
   Currently, GoToMeeting attendees on the iPad can only view meeting content.

- **On a Mac:** With a GoToMeeting session running, click GoToMeeting in the menu bar and select "About GoToMeeting."
